**Sr BackEnd Developer (JavaScript/Node.js) at SNI Technology  
Evanston, IL****About the Job**[Report this job](#)

A global leader in the media space is looking for a Sr Back End Developer to join their team. A company that has been in business for almost 20 years is looking to add a Sr Back End Developer with JavaScript and Node.js experience to their team. This position can work out of their offices in the West suburbs or just North of Downtown. In this role you and the team will be responsible for designing complex, high availability back end systems. These systems run the companies top 40 website that gets tens of millions of visitors each month. This position will be a mix of maintenance as well as new projects working on internal systems as well as client projects. Along with JavaScript and Node.js the right candidate will have experience working with an open source CMS and building APIs.

This opportunity has great growth potential and the ability to make software decisions that affect the company on a daily basis. They have excellent medical/dental insurance, casual work environment, ample PTO, parking/transit plans and an open team environment.

To be considered for this role you should have the following experience:

4+ years of JavaScript and Node.js

RESTful API

MySQL

Experience with Test Driven Development

Experience with Docker would be a plus

Interviews are being conducted directly with the hiring manager immediately so feel free to apply or contact Tyson McCarthy at [tmccarthy@snitechnology.com](mailto:tmccarthy@snitechnology.com) or 847-654-0045.
